

Working hard to keep your equipment working properly.

For additional information, reach out to your local branch or email us at CESsupport@ur.com

Customer Equipment Solutions

As an essential business or a business getting ready to return to work, working and reliable equipment is critical. Now more than ever, you may need to get more out of your existing equipment while dealing with labor challenges. United Rentals will keep your owned equipment safely operating with maintenance services, inspections and parts.

Maintenance

From preventative maintenance to unplanned repairs, done onsite or at one of our branches, our 5,500 skilled technicians can keep your projects moving.

Inspections

We conduct inspections to ensure your equipment is compliant with ANSI/OSHA standards and regulations, helping to keep your worksite and employees safe.

Parts

We have the parts you need – including specialty and hard-to-find parts – as well as supplies to help keep your equipment downtime to a minimum.

Broad Capabilities: scissor lifts, boom lifts, forklifts, air compressors, skid steers, generators, mini-excavators, light towers, rollers, pumps and more.

Our Commitment to You During COVID-19

Our top priority at United Rentals is the safety of your team and ours, while continuing to provide equipment and services. Prior to equipment being rented, we disinfect the equipment with US EPA-approved disinfectants and follow manufacturers' instructions on their application to spray and/or wipe commonly touched surfaces necessary to operate tools and machinery. If we are dropping equipment off to you, our drivers perform a "last touch" precautionary disinfecting of the equipment. We apply these same practices to customer-owned fleet.

If you need further information on how we can assist your emergency response needs, visit [UnitedRentals.com/emergency-response](https://www.unitedrentals.com/emergency-response)
