

# Data sheet

## CABLE RAMP

### IDEAL USAGE

Our cable ramps meet the highest of standards and are suitable for applications within heavy industrial projects with easy integration to comprehensive projects.

### APPLICATIONS

- Plug & play integration with other UR electrical equipment.
- During projects where cables are used to power equipment and need to travel across a road with maximum protection.

### WEIGHT AND MEASURES

Length	700 mm
Width	696 mm
Height	87 mm
No. of channels	5x ø59mm
Weight	21,4 kg
Max Load	Approx 5 tons per 20 x 20 cm
Connections	2
Capacity	5 x 240 mm <sup>2</sup> cable

### FEATURES

- High quality polyurethane
- Modular system
- Self cleaning hinge
- Large load bearing capacity

### MATERIALS AND SPECIFICATIONS

Material	TPU (Thermoplastic Polyurethane)
Temperature range	- 30° - 60° C
Shore A hardness	88 ± 4
Fire rating	B2 (B1 also available)
