

Data sheet

COMPRESSOR 220L 230V RA

IDEAL USAGE

Ideal for projects with various applications where reliable compressed air supply is required.

APPLICATIONS

- Powering pneumatic tools, air supply for blasting operations or temporary process air.
- Reliable compressed air in remote locations without a permanent power supply thanks to mobility.
- Use in building and construction work where a constant supply of compressed air is required.

COMPRESSOR

Manufacturer and Model	KAESER	PREM. CAR300/30W
Working pressure	10 bar	
Capacity	215 l / min	
Intake volume	300 l / min	

MOTOR

Power	1.5 kW
-------	--------

ELECTRICAL FEATURES

Compressed air connection	1x orion
---------------------------	----------

WEIGHT AND DIMENSIONS

Length	770 mm
Width	510 mm
Height	450 mm
Weight	45 kg
Capacity Fuel Tank	30 L

TYPICAL SOUND PRESSURE

dBa @ 10 m	70 dB
------------	-------
