

Data sheet

LIGHT TOWER 6 METRES MOBILE

IDEAL USAGE

Ideal for projects with various applications where reliable and consistent lighting is required.

APPLICATIONS

- 360° lighting, for example at a car park
- Highly suitable for high interior spaces
- 230V solid supply or redirected to a diesel light pole

WEIGHT AND DIMENSIONS

Minimum dimensions: 1230 mm x 780 mm x 2420 mm
(L x W x H)

Maximum Dimensions: 1870 mm x 1460 mm x 6300 mm
(L x W x H)

Weight: 220 kg

Lift system: Manual

PERFORMANCE

Mast rotation: 340 °

Resistant to wind load: 80 km/h

Lamp power: 1 x 400 W

Lamp type: LED (UFO)

Total lumen: 50000 Lm

Illuminated surface area: 1000 m² / 360 °

Max. number of units in series: 7
